

# "THE EXPERT" USER CLUB

---

137 Stonefall Avenue  
HARROGATE  
HG2 7NS

---

Dear EXPERT User,

Thanks for your enquiry about the EXPERT USER CLUB. I'm sure that you will find it worthwhile to join.

The club is non-profit making - any surplus funds will be allocated to competition prizes, and already has members throughout the world.

Our aims are to exchange ideas and uses for the EXPERT cartridge, to keep members informed of any imminent upgrades and other developments, and generally to help members to get the most from their EXPERT.

We have been heartened by the enthusiastic response - it has made all our efforts really worthwhile, and to ensure that the club is run for the benefit of members, we will be sending out questionnaires on a regular basis and providing there are sufficient funds, we expect to run some competitions with worthwhile prizes. See below for details of the first one.

Members receive the bi-monthly club newsletter "EXPERTISE" free. In it are features on Q values, hints, tips and cheats, news of upgrades, and advance details of new EXPERT software. Contributions from members for publication are welcomed and we try to help with any problems they may be having in using the EXPERT.

Because the club is truly international, and since we receive many requests for members to be put in touch other EXPERT users both locally and as penpals, the newsletter now features a letters/personal column.

Membership subscription for UK residents is only £3.75 for a 6 month trial period. For overseas members the subscription rate is £5.75 for 6 months. Annual membership fees thereafter have not yet been fixed but will be about £7.00 for UK residents and £10.00 for overseas members.

## TRILOGIC'S EXPERT CARTRIDGE.

MULTIPART PROGRAM UPGRADE V2.7M 4th NOVEMBER 1986.

### Introduction

V2.7M operating system will enable you to transfer many multipart programs to disk. We suggest that the main program which waits at the 'select an option' stage is saved on one disk, and the subsequent program files are saved on one or more additional disks. (or possibly, both sides of a notched disk). The programs which this operating system can handle is restricted to mainly those using the Novaload tape loading system.

### Instructions

- 1) Format three or four disks.
- 2) Program the EXPERT with V2.7M. and then insert the first of your blank disks.
- 3) When you have been returned to Basic by the N command, load the game.
- 4) When the cassette stops and the program waits for you to select an option, STOP the DATASETTE.
- 5) Now tap the RESTORE key and save the program to disk in the usual way.
- 6) When saved, press N (return) to go back to Basic.
- 7) Reinsert the EXPERT disk into the drive and type:-  
Load "M\*",8 (return) and type RUN when it has loaded.  
This is the program which transfers the subsequent program files to disk - it does not need the EXPERT connected.
- 8) Insert the second formatted disk into the drive.
- 9) Now follow the on-screen instructions for saving the subsequent program files.

### NOTES

- 1) Only certain multipart programs can be handled by V2.7M operating system.
- 2) Only use V2.7M for multipart loaders.
- 3) The "multi files" program will not save files of the same name - a "file already exists message" will appear if more than one file of the same name is present.
- 4) Two functions have had to be deleted from the EXPERT's monitor - these are the D and the A commands when V2.7M is used.
- 5) By joining the EXPERT USER CLUB (£3.75 for 6 months membership), more detailed help with specific programs may become available via User Club members. Write to :- THE EXPERT USER CLUB, 137 Stonefall Avenue, Harrogate, N. Yorks, NG2 7NS. enclosing £3.75 plus your name and address.
